BEWARE OF SPYWARE

SPYWARE refers to software that performs certain tasks on your computer without your consent. This may include giving you advertisements or collecting personal information about you.

(Pop-ups, slow system, system crashes, changes in your system, new toolbar on your browser, unwanted software)

HOW TO PREVENT FROM SPYWARE?

• Use a firewall

• Adjust your security setting on your browser for the Internet zone to "Medium"

• Install and update your anti-spyware software

• Download software from website that you trust only
